

**Delivering peace of mind
with digital transformation**

queLogic software is the ultimate high efficiency compliance and communications tool. Whether adding permanent data to a file, approving documentation for downstream processes, converting files to more portable versions or sending your project to print for distribution, QUE is for YOU.

queLogic automates every-day tasks so that you can focus on what matters. Strategy. Quality. Customer satisfaction. Those things that move a project to market.

Simple to use

- Any environment
- Out-of-the-box integration with a wide variety of software
- Point-and-click interface
- Modularized to fit your needs

Standard features

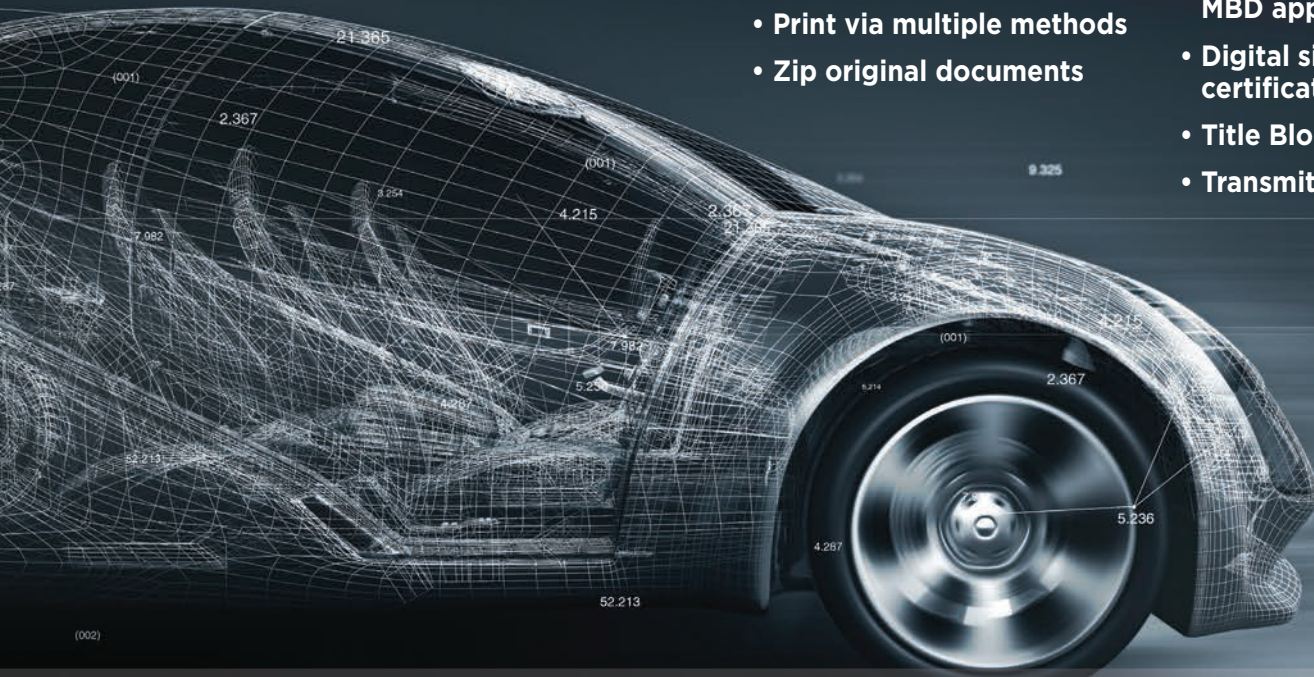

- Convert any file type
- PDF/A converter
- OCR functionality
- Regulatory compliance tool
- Multi-document merging
- Dynamic stamping

Printing

- Print individual or batch
- Print via multiple methods
- Zip original documents

Additional options

- CL 3D to support MBD approach
- Digital signature with certificate management
- Title Block Plus
- Transmittal management

Document transformation workflow

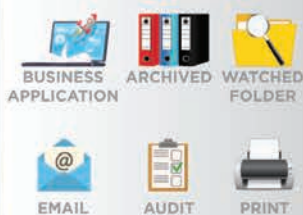

1. Start with your documents

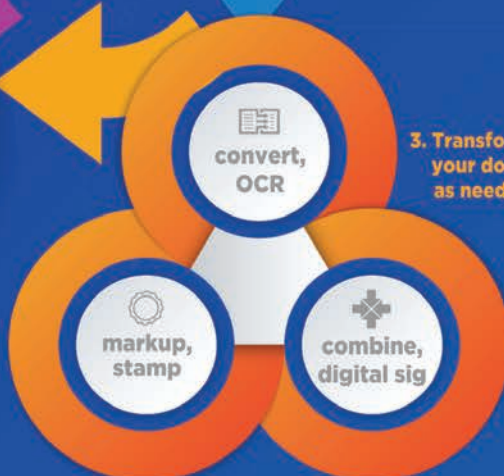

2. Get Qore8's simple-to-use dev kit

4. Get your preferred output destination

3. Transform your docs as needed

Qore8 value model:

High-efficiency
Simplifies compliance
Low cost of ownership
Full trackability

QUE is for YOU

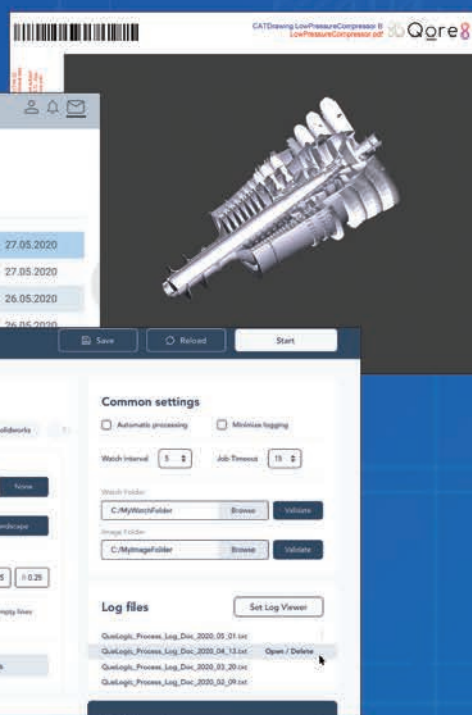

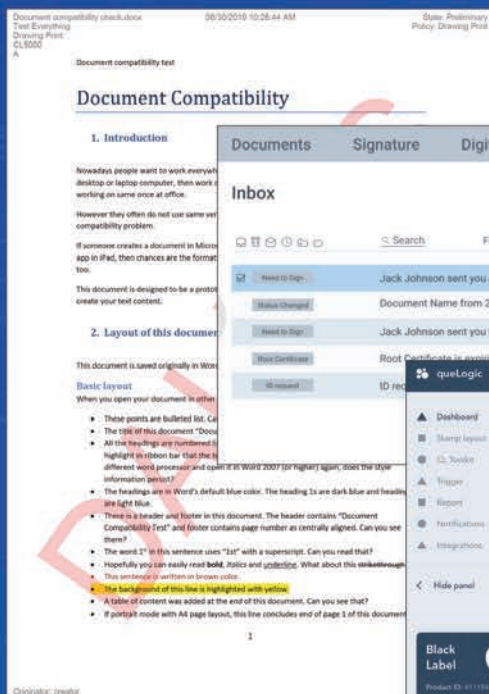

It just works

Set your preferences and you're ready to print. No programming. No code. **queLogic** works in any environment—on-site and in the cloud. The prebuilt API means you're plug and play ready.

Enterprise-wide

Powerful architecture scales with your enterprise, supporting any structure. Link to workstations around the world. Process documents via consistent or variable parameters.

queLogic empowers creators.

How Qore8 works

Streamlining workflows

High-efficiency document transformation for insurance brokers, agents, employees and customers

queLogic is everything you need to go from dreaming to doing.

What's your file type?

Print hundreds of file types directly from your database without ever leaving **queLogic**. Large or short runs. Point-click-print. Done. All without opening the native application.

Qore dashboard

Manage and convert documents in bulk, or by the job. Either is equally as simple.

PDF/A

Preserve documents in a single step. Choose from several formats, all meeting ISO standards.

Transmittal management

Create, consolidate and protect document packages to external stakeholders. Collaboration is secure through to executed agreement. Whether revisions are made to a single sheet or an entire document, all correspondence is tracked, and system stored to protect the chain of control. The result is frictionless, secure communication.

CL 3D

Access detailed MBD data at any part of the process to facilitate rapid and seamless delivery. CL 3D collects product structure, PMI, and GD&T from your PLM/PDM and converts flawlessly to support downstream collaboration. Time-to-production is realized 40 percent sooner—achieved through higher quality—reducing errors and re-work.

Title Block Plus

Giving time back to your engineers is priceless, reducing errors due to manual entries is critical, our automation tool designed to update custom tables within the native CAD files, including title blocks, and revision tables, will give your engineers back hours a day. Automating a manual process and mitigating error prone entries.

With queLogic,
anything is possible

queLogic is a one-stop platform that processes files through the appropriate engine —automatically—to generate the desired format for output.

Digital signature with certificate management

Having the right approvals, at the right time, in the right sequence, are pivotal to an organizations self-preservation. Put a guarantee on your designs by ensuring their authenticity. Discover our centralized platform that allows you to manage, deploy, and monitor your organizations certificates intuitively and effectively.

Metadata without limits, stamping your way

Add virtually any data or file as a permanent meta stamp to your document. Customizable data stamping with client-side administrative formatting is available.

Conversion engines

Complex formats are our **qore** proficiency. Whether enhancing NX, SOLIDWORKS, AutoCAD, CATIA, Creo, or Inventor, Qore8 delivers discernible value to Fortune 1000 companies through operational efficiency. We ensure the highest fidelity formats and chain of control features that mitigate risk.
