Qore8

THE SMART, SECURE CORE OF DIGITAL TRANSFORMATION

Qore8 provides automated solutions needed for intelligent creation of digital assets and facilitating the secure sharing and usage of such assets across a broad range of related business processes. Qore8 is the smart, secure core of Digital Transformation.
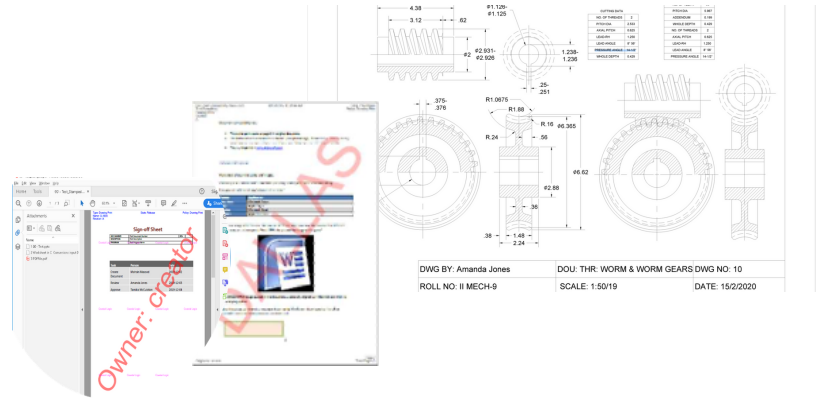

3 Tools to Value

Business Logic Tools
Compliance Tools
Collaboration Tools

Qore8 Supports your Business Processes

Lifecycle Management
Secure document sharing
Drug Patent Submissions
Insurance Claims Processing
Document archival
Approval Management
ITAR Compliance Processing
Quality Management Systems Documentation (SOPs/WIs)
MRO Procedural Submissions
Regulatory Compliance Submissions
Automated Image Conversions
Custom Signature Processes backed by Public & Private Key Infrastructure
Supply Chain/3rd party Transmittals

business tools

Qore8 business logic can be leveraged in different ways to support your specific business process requirements. Elevating various data structures, executing conversions without compromising fidelity, and automating tedious manual processes.
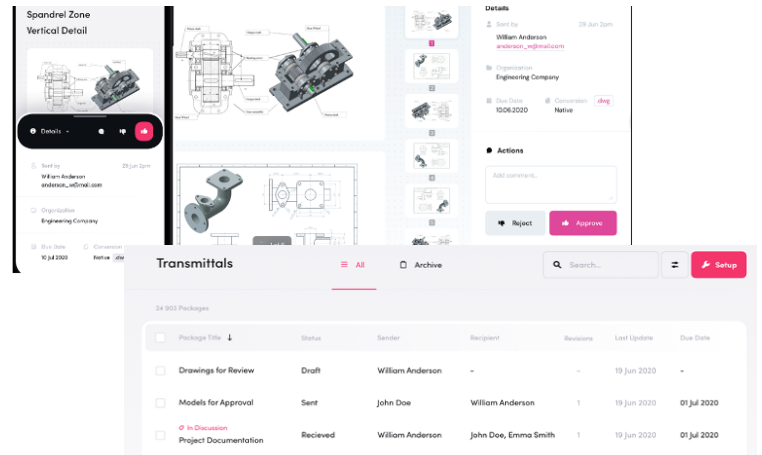

compliance tools

Qore8 provides a comprehensive Public Key Infrastructure (PKI) to manage signatures for the right approvals at the right time, or dynamic stamping to manage the lifecycle of a document from cradle to grave along with regulatory compliance support.

collaboration tools

Managing, filtering, and processing mass communication is difficult for anyone let alone the livelihood of your business. Qore8 provides a vendor collaboration platform giving you 100% traceability and package approval with loss prevention guaranteed.

AUDIT TRAIL

Qore8 Solution Services

- Initial implementation
- Configuration (to align with business processes)
- Integration into business platforms
- Training
  - Application Usage
  - Configuration & Integration
- Development Acceleration
- Custom Development Initiatives

System Agnostic Solutions

- Single Digital Asset transformation platform to any Enterprise platform (ERP, Sharepoint, PLM, etc)
- Out-of-the-box integration for major platforms
- Integration services available if your platform is not available
- Modular product options to buying

3DEXPERIENCE Solution

- Fully integrated with Dassault's 3DEXPERIENCE
- 14 supported activity based triggers
- On-demand trigger
- Bidirectional communication with 3DEXPERIENCE
- Supports all versions of Enovia/3DEXPERIENCE
- Modular product options to buying

Collaboration Solution

Secure traceable sharing of Digital Assets

Enable secure and effective sharing of digital assets inside and outside of your organization digitally transforming collaboration. qoreTransmit from Qore8 reduces IP risk exposure and communication bottlenecks by improving communication securely with the right digital information.

qoreTransmit provides a single user experience to publish Digital Asset transmittals into multiple data exchange platforms including:

3DDrive	MS Teams
Box	Slack
Google Drive	OneNote
Dropbox	FTP
Sharepoint	

PRODUCT LIFECYCLE

DESIGN APPROVAL
