

# —CONVERT— LOGIC

Intelligently creating secure  
traceable Digital Assets in  
3DEXPERIENCE

Qore8 energizes data portability of any digital asset with point-and-click simplicity. **convertLogic** reduces time and cost through smart efficient generation of secure and traceable 3DEXPERIENCE Digital Assets for any business process.

**convertLogic's** Digital Assets can then be securely shared with external stakeholders providing 100% traceability, digital compliance, and document authenticity.

## Simple to use

- Out-of-the-box integration
- Point-and-click interface
- Modularized to fit your needs
- Fast and reliable
- Supports all versions

## Standard Features

- Conversions of any file type
- PDF/A Conversions
- OCR Technology
- Multi-document merging
- On-Demand Feature
- PDF Navigation Features
- Secure Dynamic Stamping
- Relationship Traversal
- Bulk Enterprise Printing
- Custom Document Creator

## Additional Features

- Model-Based Design Platform
- Multi-CAD Capabilities
- Title Block Automation
- Transmittal Management Platform
- Signatures w/PKI Infrastructure

### Model-Based Design

Access detailed MBD data at any part of the process to facilitate rapid and seamless delivery. convertLogic's MBD platform collects product structure, PMI, and GD&T from your PLM/PDM and converts flawlessly to support downstream collaboration. Time-to-production is realized 40% sooner—achieved through higher quality—reducing errors and re-work.

### Title Block Automation

Reduce engineering design time with an automated stamping process in batch mode, alleviating the need to update custom tables and fields within your native CAD files.

### Signatures with PKI Infrastructure

Having the right approvals, at the right time, in the right sequence, are pivotal to an organizations self-preservation.

Put a guarantee on your designs by ensuring their authenticity. Discover our centralized platform that allows you to manage, deploy, and monitor your organizations certificates intuitively and effectively.

### Implementation and Services

Maintenance, tech support, upgrades—convertLogic is everything you need in one package. Migrating to another version of ENOVIA/3DEXPERIENCE? It's covered. We help you get convertLogic up and working in no time. The Qore8 team is standing by to empower your creations and energize your work flows. We move with you and support your enterprise.

### Dynamic Stamping

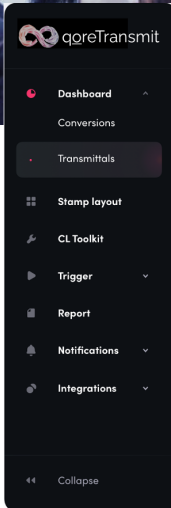

Metadata without limits, stamping your way  
Add virtually any data or file as a permanent meta stamp to your document. Customizable data stamping with client-side administrative formatting is available. Marking your designs at each lifecycle state and upon modifications of specific attributes will protect intellectual property, prevent version erosion, and satisfy legal and export compliance regulations. Qore8's robust Dynamic Stamp offers flexibility and a wide range of options.

### Archiving capabilities

Preserve your creations by using an ISO-standardized version of the Portable Document Format (PDF) specialized for use in the archiving and long-term preservation of electronic documents. PDF/A differs from PDF by prohibiting features unsuitable for long-term archiving, such as font linking (as opposed to font embedding) and encryption.

### Custom Document Creator

Qore8 makes proprietary documents attainable through our flexible, easy to use custom document creator. Documents can be created at runtime, generated to be published with any file package whether it is a title page, sign-off approval page, cover letter, bill of materials, the list of possibilities is endless.
