qoreTransmit

Secure Traceable Sharing of Transmittals and Submittals

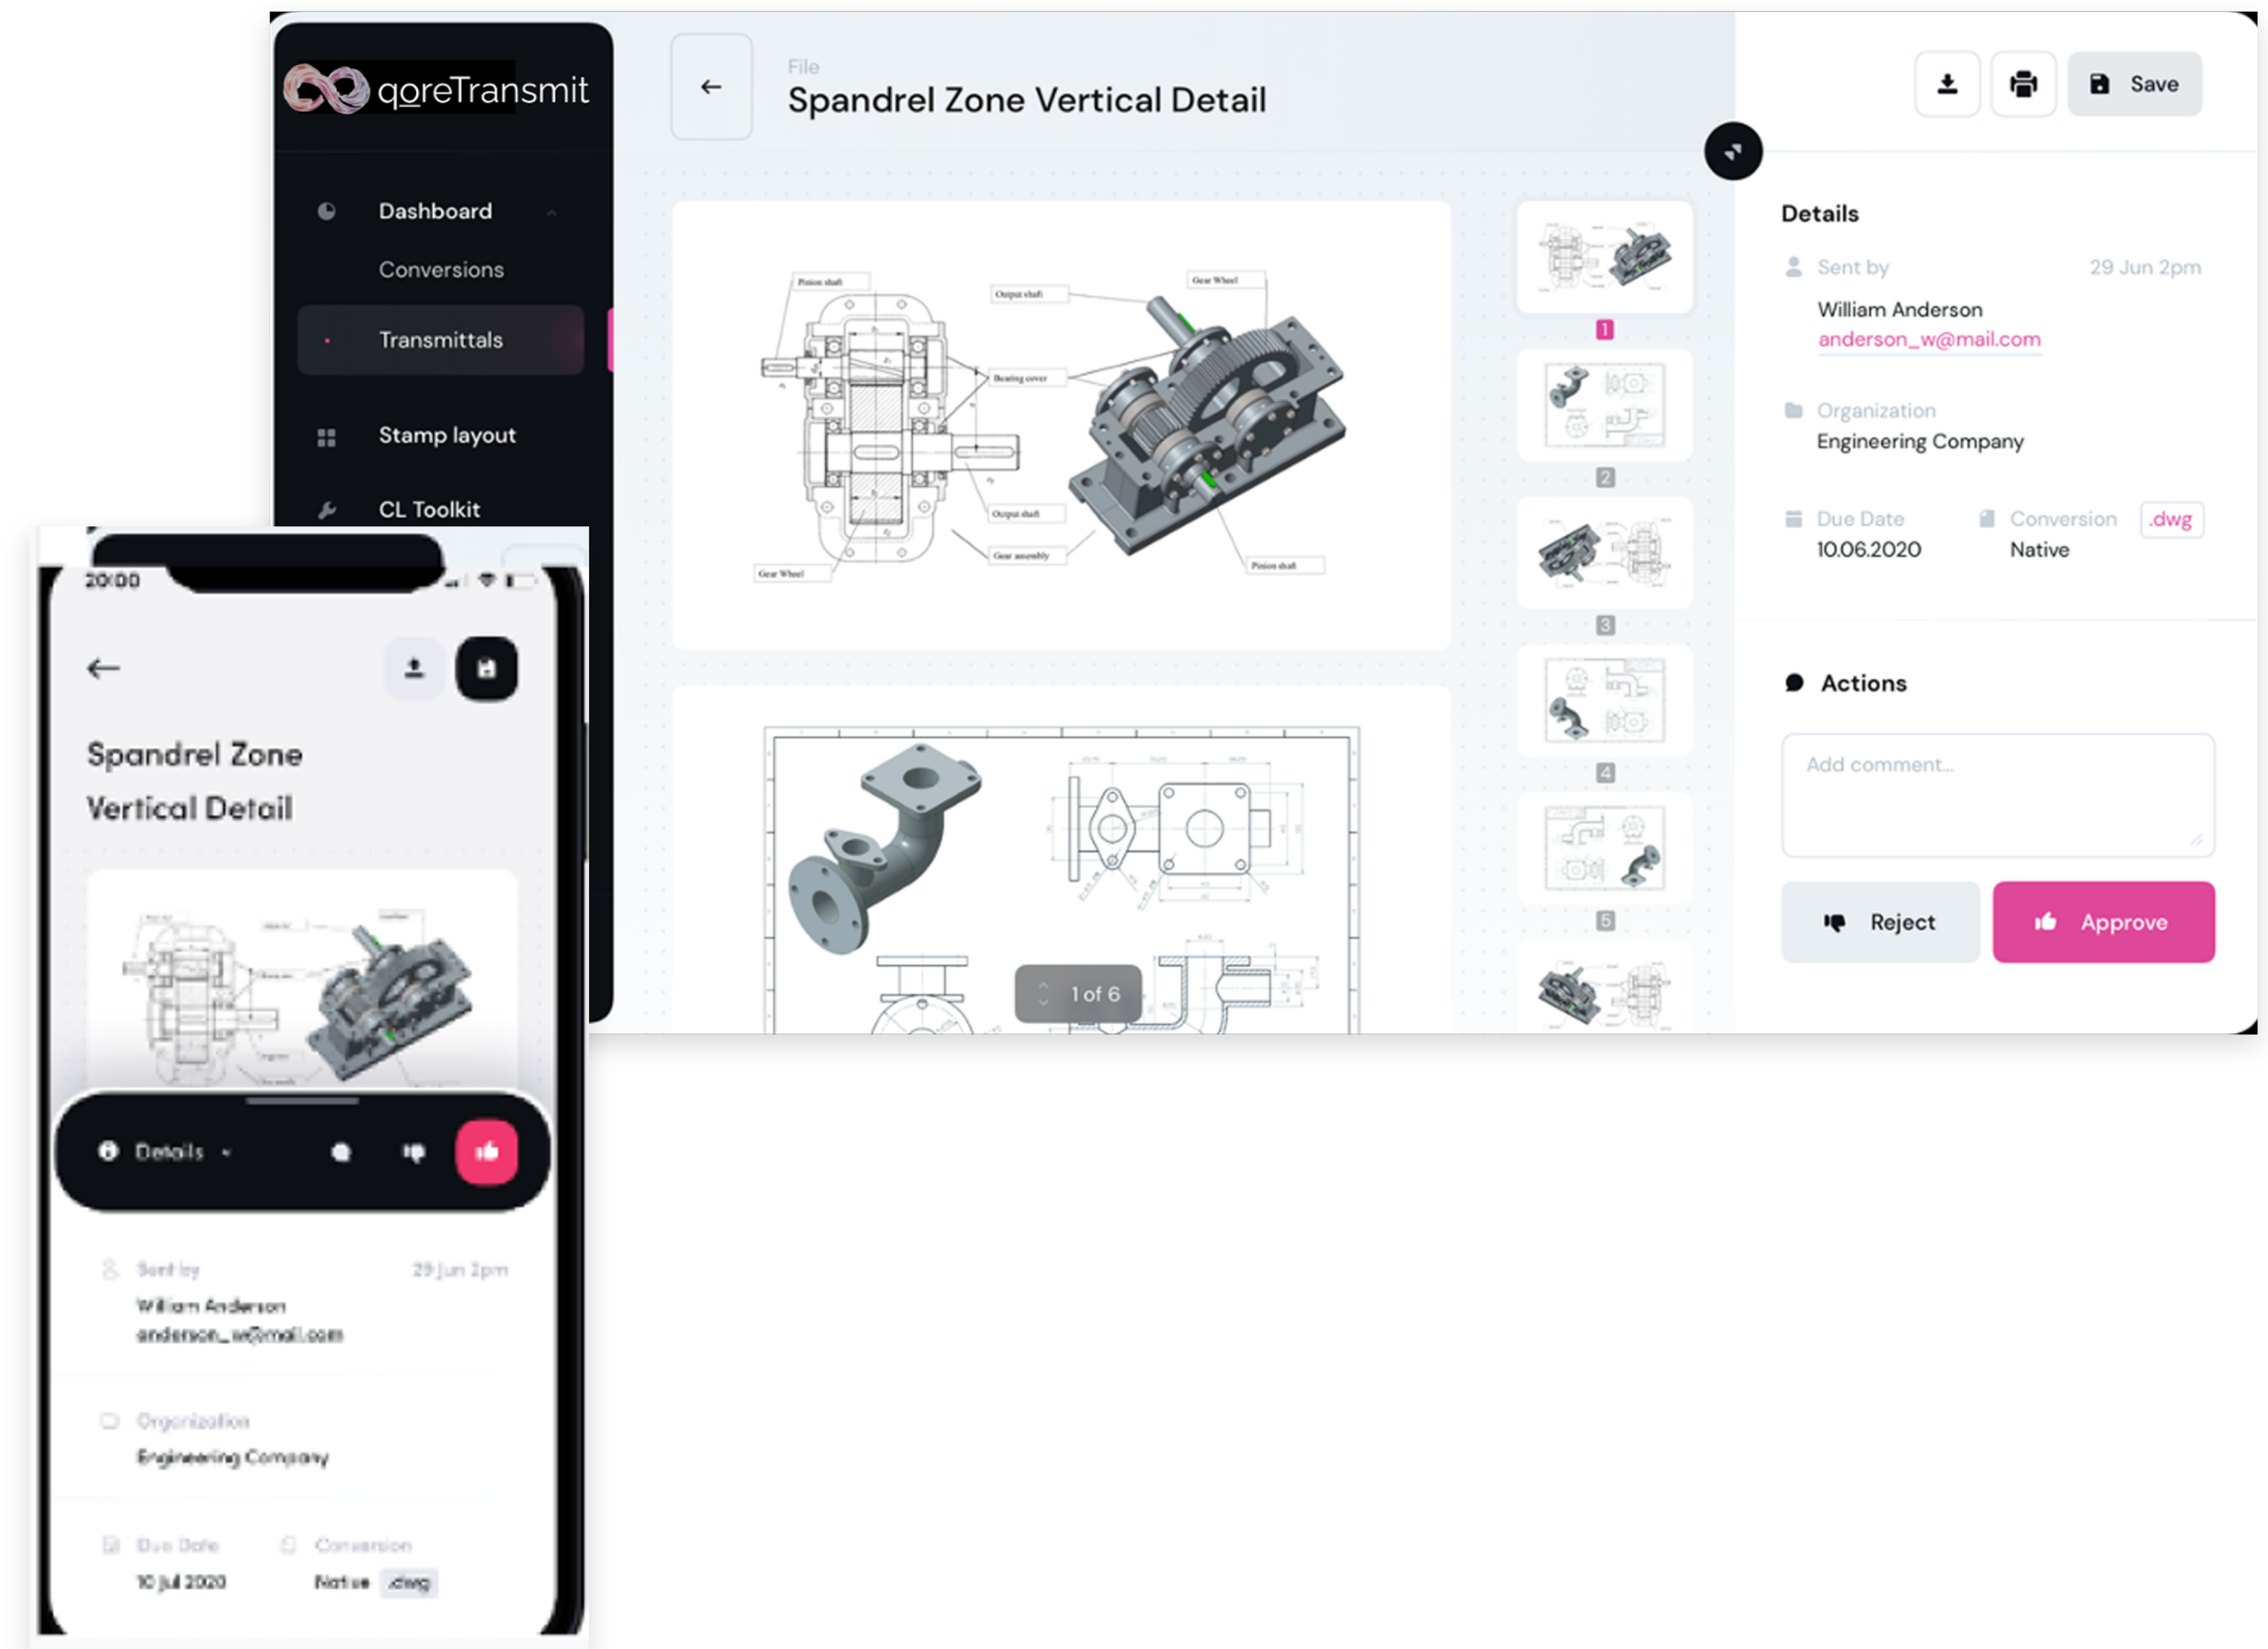

Our customers use qoreTransmit to streamline the flow of submittals and transmittals **from one convenient centralized location**. Using one location to manage your company's supplier communication promotes accountability, transparency, and reduces production delays.

qoreTransmit ensures ease of use to create, manage and track submittals and transmittals with a bidirectional workflow making it easy for everyone to contribute.

Time sensitive projects, communication, and deadlines will never go missed again. qoreTransmit will use our alert capabilities to keep you on track and on budget.

Key Capabilities

- Send and track transmittals and submittals from one central location
- A centralized message board to track the flow of communication
- Alert capabilities for urgent communication and action items
- Bi-directional workflow capabilities making it easy for your recipients to add, edit, reject, approve, and add comments.
- Document Storage available
- Our solution is flexible and scalable to meet your business needs
- Every step is tracked with a comprehensive audit trail

What We Do

- Multiple document delivery methods available (BOX, Sharepoint, FTP, etc.)
- Maximize the platform with multi-format conversion and stamping tools
- Audit trail for compliance
- Documents are time stamped
- Document Compression
- Document Archival (PDF/A)
- Custom Document Creator available to personalize your transmittal
- File encryption for secure sharing

Transmittal/Submittal Management Lifecycle

Qore8 publishes flawlessly into:

- 3D Drive
- Box
- Google Drive
- Dropbox
- FTP
- ENOVIA (in development)
- Sharepoint and **more..**

Communication is a vital skill and fundamental to all relationships. Miscommunication leads to missed opportunities, loss of trust, and lack of accountability. Organizations have become increasingly complex, from systems to organizational structure. Staying hyper-connected with people, partnerships, and data that drive your business will drive the performance, growth, and the supplier stability you expect.
