TRANSFORMING YOUR DOCUMENTS – CONVERT, COMBINE, AND STAMP
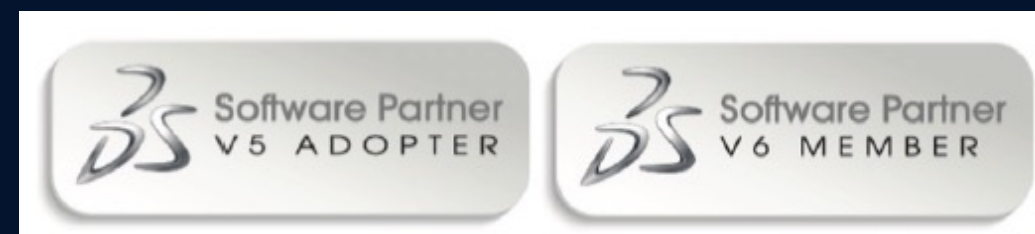

www.qore8.com

Qore8

About

Qore8 helps automate ENOVIA business processes by using triggers to launch various workflows, based on change action events during different lifecycle stages. We do this by converting over hundreds of various formats, OOTB, to alternative formats such as PDF, within 3DEXPERIENCE.

Our customers leverage metadata without limits by stamping for regulatory requirements. Add virtually any data or file as a permanent meta stamp to your document. Marking your designs at each lifecycle state and upon modification of specific attributes will protect intellectual property, prevent version erosion, and satisfy legal and export compliance regulations.

Simple to Use

- Out-of-the-box integration
- Point-and-click interface
- Modularized to fit your needs
- Fast and reliable
- Supports all versions of 3DEXPERIENCE and QUC as Dassault's CAA Partner

Standard Features

- Conversions of any file type
- PDF/A Conversions
- OCR Technology
- Multi - document merging
- On-Demand Feature
- PDF Navigation Features
- Secure Dynamic Stamping
- Object Part Change Automation
- Bulk Enterprise Printing
- Custom Document Creator
- QUC Integration OOTB

Additional Features

- 3D Technical Package Platform
- Multi-CAD Capabilities
- Custom Table Automations
- Transmittal Management Platform
- Signatures w/PKI Infrastructure

convertLogic
descriptions

Leveraging convertLogic's Business Logic,
Compliance and Collaboration Capabilities

3D Supporting Model-Based Design

Improve your manufacturing and design process by accessing technical data at any part of the process to facilitate rapid and seamless delivery. convertLogics's 3D platform collects product structure, PMI, and GD&T from your PLM/PDM and converts flawlessly into various formats to support downstream collaboration. Time-to-production is realized 40% sooner and achieved through higher quality—reducing errors and rework while protecting valuable IP.

Title Block Automation

Reduce engineering design time and manual errors with an automated stamping process in batch mode,   This includes an automated update of metadata properties alleviating the need for manual intervention of custom tables and fields within your native CAD files.

Signatures with PKI Infrastructure

Having the right approvals, at the right time, in the right sequence, are pivotal to an organizations self-preservation. Put a guarantee on your designs by ensuring their authenticity by either a Digital Signature or an Electronic Signature.   Discover our centralized platform that allows you to manage, deploy, and monitor your organizations certificates intuitively and effectively.

Implementation and Services

Maintenance, tech support, upgrades—convertLogic is everything you need in one package. Migrating to another version of ENOVIA/3DEXPERIENCE? It's covered. We help you get convert-Logic up and working in no time.

Dynamic Stamping

Metadata without limits, stamping your way without borders. Add virtually any data or file as a permanent meta stamp to your document. Customizable data stamping with client-side administrative formatting is available. Marking your designs at each lifecycle state and upon modifications of specific attributes will protect intellectual property, prevent version erosion, and satisfy legal and export compliance regulations. Qore8's robust Dynamic Stamp offers flexibility and a wide range of options to handle your most complex requirements.
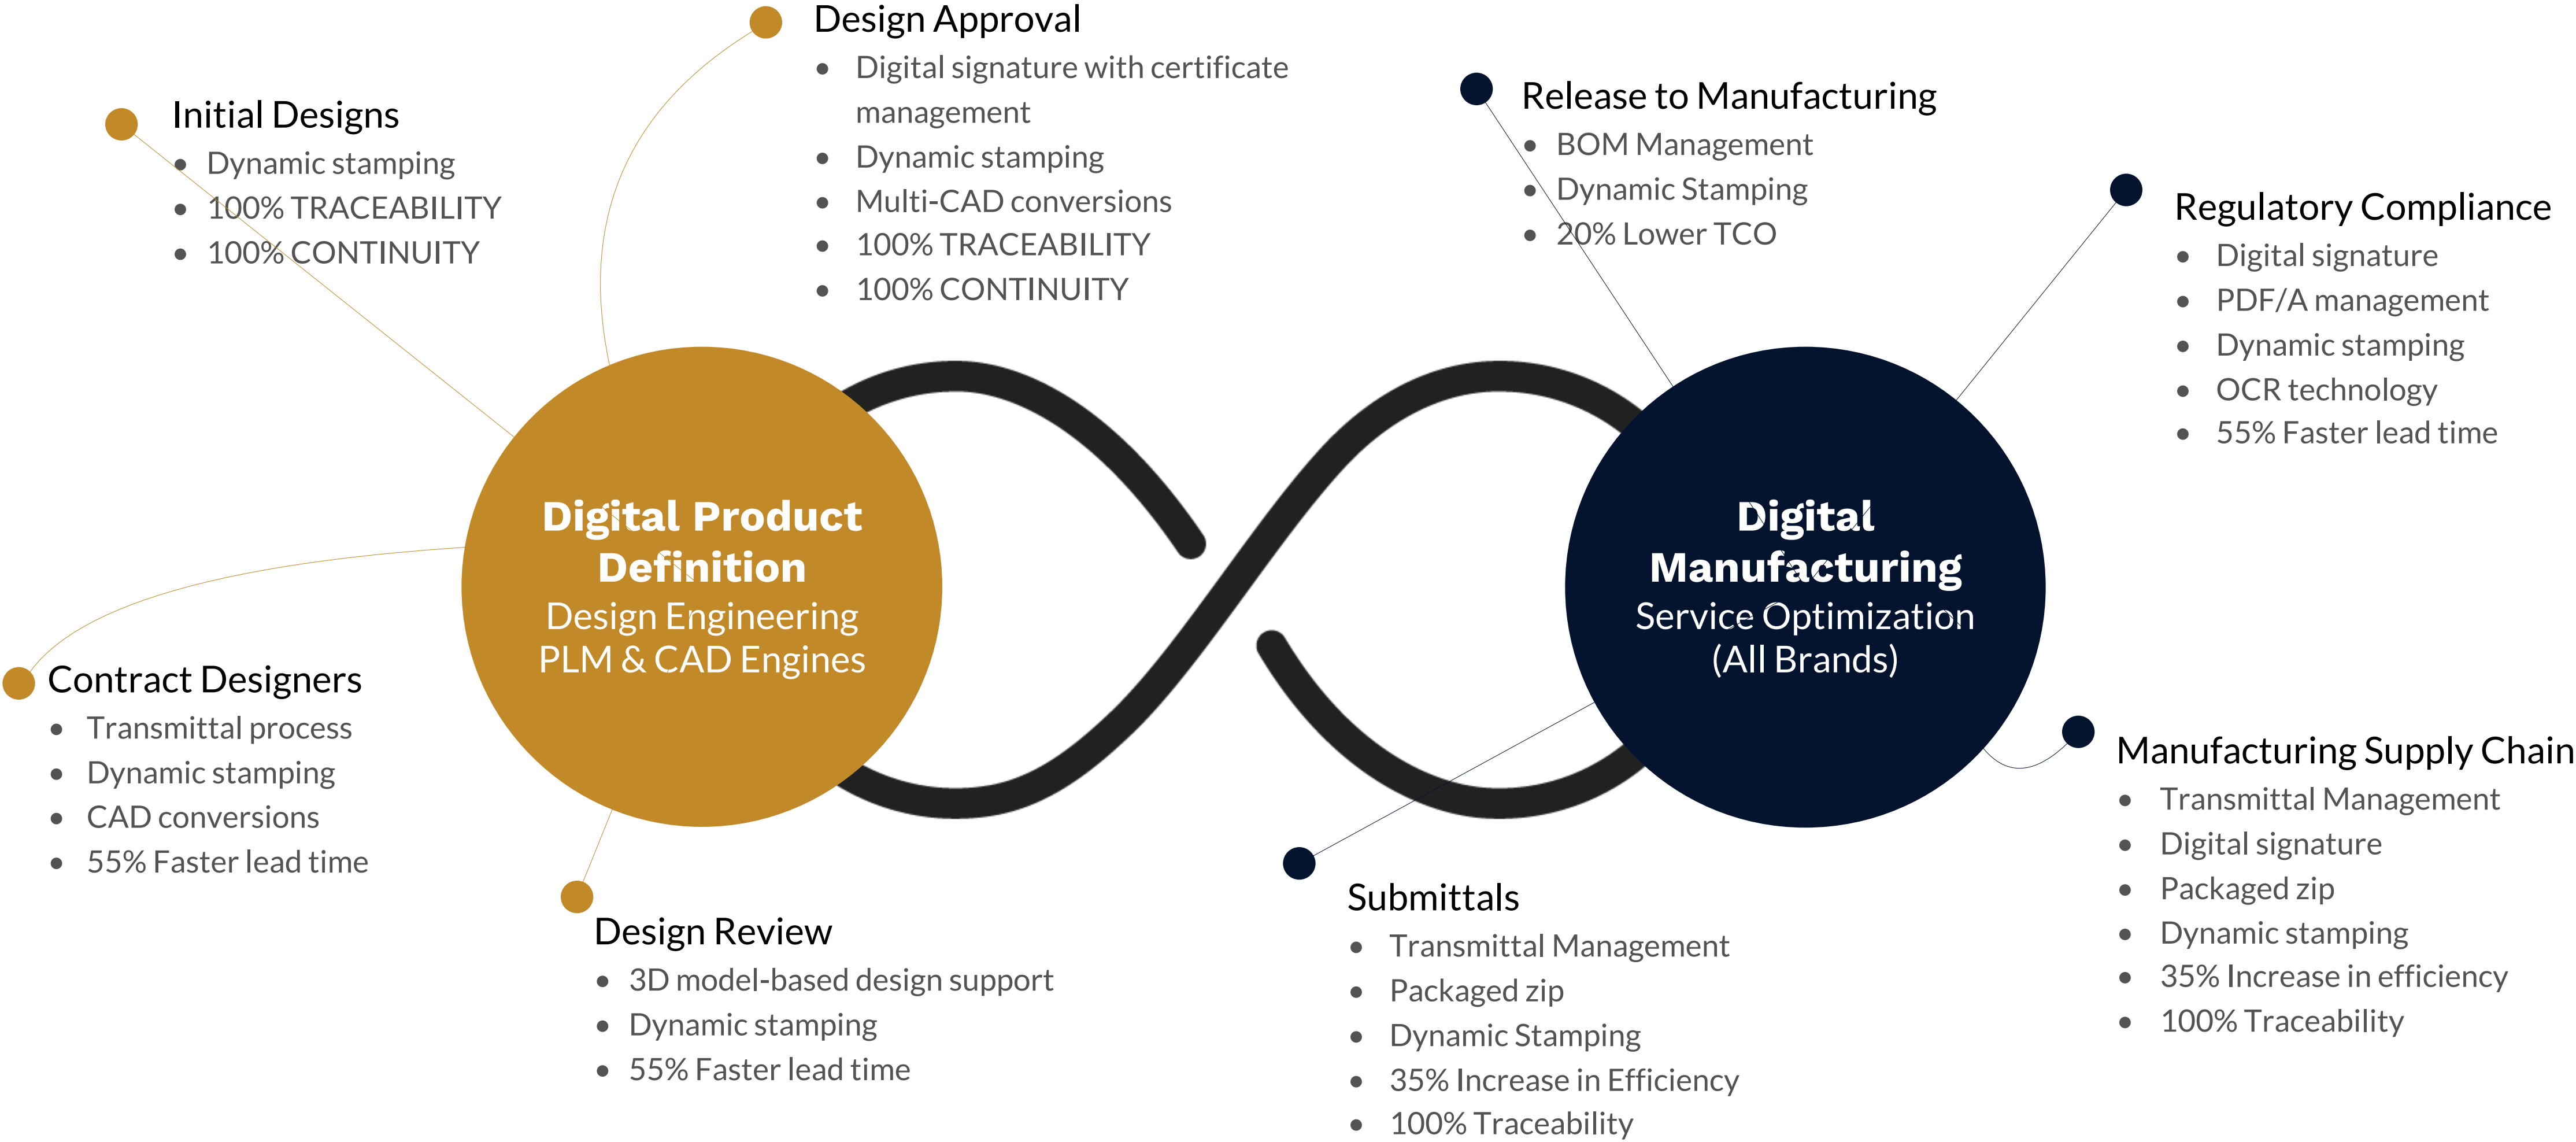

Archiving Capabilities

Preserve your creations by using an ISO-standardized version of the Portable Document Format (PDF) specialized for use in the archiving and long-term preservation of electronic documents. PDF/A differs from PDF by prohibiting features unsuitable for long-term archiving, such as font linking (as opposed to font embedding) & encryption.

Custom Document Creator
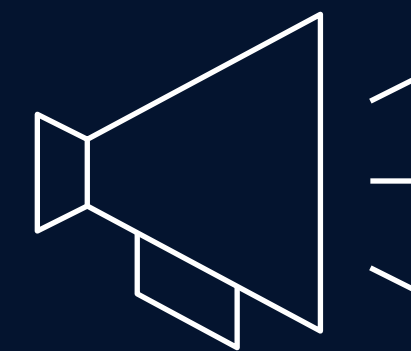

Qore8 makes proprietary documents attainable through our flexible, easy to use custom document creator. Documents can be created at runtime, generated to be published with any file package whether it is a title page, sign-off approval page, cover letter, bill of materials, the list of possibilities is endless.

The smart, secure core of digital transformation

Product Lifecycle

Initial Designs
- Dynamic stamping
- 100% TRACEABILITY
- 100% CONTINUITY

Design Approval
- Digital signature with certificate management
- Dynamic stamping
- Multi-CAD conversions
- 100% TRACEABILITY
- 100% CONTINUITY

Release to Manufacturing
- BOM Management
- Dynamic Stamping
- 20% Lower TCO

Regulatory Compliance
- Digital signature
- PDF/A management
- Dynamic stamping
- OCR technology
- 55% Faster lead time

Digital Product Definition
Design Engineering
PLM & CAD Engines

Digital Manufacturing
Service Optimization
(All Brands)

Contract Designers
- Transmittal process
- Dynamic stamping
- CAD conversions
- 55% Faster lead time

Design Review
- 3D model-based design support
- Dynamic stamping
- 55% Faster lead time

Submittals
- Transmittal Management
- Packaged zip
- Dynamic Stamping
- 35% Increase in Efficiency
- 100% Traceability

Manufacturing Supply Chain
- Transmittal Management
- Digital signature
- Packaged zip
- Dynamic stamping
- 35% Increase in efficiency
- 100% Traceability
